

# Free Accessibility Training

for Illinois & Wisconsin Manufacturers

MxD, in partnership with Access Living, is excited to offer free disability access training to manufacturers in Illinois and Wisconsin. This effort is part of a larger MxD initiative to increase manufacturing career opportunities for individuals with disabilities. Attract and retain a diverse workforce and strengthen your workplace accessibility!

**Accessibility training** will cover topics such as:

- Perceptions of disability and why they matter
- Learning the “language” of disability
- Creating a more disability inclusive workplace

Training can be either virtual or in-person and will be delivered by experts in disability access.

## Sign Up

Email [mxdlearn@mxdusa.org](mailto:mxdlearn@mxdusa.org) for questions or to sign up for the training.

## Opportunity to Host an Intern

As part of this program, fellows with disabilities are currently undergoing training at College of Lake County. **Manufacturers who undergo accessibility training will be eligible to host a fellow as an intern in 2024, and intern wages will be paid by MxD.**
